INTRODUCTION

Parents are encouraged to be actively involved in the education of their children. We are keen to foster among all of the constituents of the school a sense of community based on cooperation, mutual respect, and open and effective communication.

A MESSAGE FROM THE PRINCIPAL

Dear Students and Parents,

On behalf of Salahaldin International School, I would like to welcome you all to the new Academic Year, with a special welcome to those new to SIS. We are confident that you will find the school a great place to learn, to meet new friends, and to gain new experiences. We encourage you to accept the challenges that lie ahead in learning as you pursue your education and lifetime goals.

This handbook is designed to be a reference so that you have the most necessary information readily available. There are several new sections and changes in this year's handbook, so kindly read it thoroughly.

Our goal at SIS is to create a learning environment that cares for each student's welfare while setting high expectations for behavior and learning. We ask that you not only study and achieve academically but also demonstrate excellent character and leadership qualities that are required of all who wish to be successful students and good citizens in our society. We encourage you to become involved in school activities, arts, and athletics. Become involved in as many activities as you can manage and that you enjoy. Research has shown that when students become more involved in school activities at all stages, grades, and levels of achievement improve.

We hope that this year will be your best school year ever. We wish you a successful and rewarding time at SIS.

SCHOOL OVERVIEW

Salahaldin International Schools (SIS) are international schools in Egypt that opened their doors in September 2009 in Cairo, in 2011 in Beni Suef, and in 2014 in Alexandria. Salahaldin International Schools operate under the supervision and strategic guidance of **Harmony Education**, the managing organization responsible for ensuring consistency, quality, and alignment across all campuses in Cairo, Alexandria, and Beni Suef. Harmony Education provides the educational framework, leadership support, and vision that shape the operational and academic direction of each school.

Each Salahaldin International School campus is empowered to adapt and grow within its community while remaining fully aligned with the core values, mission, and vision established by Harmony Education. This partnership ensures that all policies, practices, and decisions reflect a unified commitment to educational excellence and international accreditation standards.

As part of this alignment, all handbooks and policies must be:

- **Reviewed and updated annually** through collaboration between school teachers/staff, leadership, and governing body members,
- **Aligned with Harmony Education’s mission and vision**, as well as relevant international accreditation frameworks, and
- **Submitted to Harmony Education General Management for final review and approval** before dissemination to stakeholders.

This collaborative and structured process reinforces our shared commitment to quality, coherence, and continuous development across the Harmony Education community.

HEALTH AND SAFETY

Illness

- Parents are kindly asked to ensure that the medical information form is filled out at the beginning of each academic year, and this information is accurate and updated.
- The school employs a full-time doctor and nurse on campus. The school doctor will take care of minor injuries and will send a note to parents describing the injury and the action taken.
- Bringing any medication to school is not permitted. If medication must be administered to your child during school hours, please notify the school.
- Only the school doctor shall administer medication.
- The school assumes no responsibility for any adverse reaction caused by a medication sent by parents.

Visiting School Doctor

Students cannot see a doctor during session times unless it is an urgent case. It should be during break times, preferably long breaks. In urgent cases, the assistant principal's confirmation is required. After visiting the doctor, students need to have the medication slip sealed by the school doctor.

Medication

We highly recommend that the student be kept at home if he/she is sick. This precaution is for the sick student to recover and to ensure that other students stay healthy. Parents need to inform the school office of their students to be excused. For severe cases, which result in long-term absences, parents must bring a doctor's report.

Health Screening

Regular hygiene and hair checkups will be conducted. Parents will be notified of any health or hygiene issues detected. In case a student needs home treatment, parents need to take responsibility for the treatment, and students will not be allowed to attend school during treatment time, according to the school doctor's decision.

P.E. Participation

Physical education helps develop children's gross motor skills and maintain a healthy body, positive attitudes, and congeniality. Any student who is unable to participate in a physical education (P.E.) session must bring a note signed by a doctor giving the reason for their non-participation.

Medical Emergency

When a child needs hospital attention, the school will call the parents to get approval for medical intervention. In case the school cannot reach the parent, the school will accompany the child to the hospital upon the recommendation of the school doctor.

Smoke-Free Campus

SIS is a smoke-free campus. Parents and personal drivers are asked to abstain from smoking on campus, including in the parking area.

Crisis and Safety Management Policy

SIS is committed to ensuring the safety, security, and well-being of all students, staff, and community members across its network of international schools in Egypt. This Crisis and Safety Management Policy provides a comprehensive framework for preventing, preparing for, responding to, and recovering from emergencies. It is designed to ensure that all schools operate in a state of readiness to protect lives and minimize disruption to the educational process.
